

CERTIFICATE

Registration number

RU.QM075.00113

This is to certify that
the management system of

Joint-Stock Company «Vzljot»

**2, let. BM, Trefoleva str., St. Petersburg, 198097,
Russia**

including separate divisions listed in the Annex to this Certificate

conforms to the
requirements of

ISO 9001:2015

as applied to the following
scope of activities

Design, development, production, verification, implementation, installation, repair, installation supervision, commissioning, technical audit and maintenance of devices and means of non-destructive testing (thickness gauges, level indicators), ultrasonic digital level gauges; flow meters; heat meters; controllers for regulation of heat supply systems; automated heating points; heating regulators; automation tools for measuring and transmitting data (adapters, recorders, data readers, data transfer consoles); verification equipment (verification complexes and verification installations); measuring computing complexes; sets of connecting fittings; implementation of long-term complex projects; development of Software products for analytics of resource consumption, forecasting and management

The annex, specifying the scope of certification, is the integral part of this certificate

Certification decision date

26.07.2025

Head of Certification Body

Issue date

26.07.2025

Validity date

25.07.2028

Initial certification date

10.02.1999

Annex to the certificate
Reg. № RU.QM075.00113
dated 26.07.2025 on 2 pages

Certification scope of Quality Management System of the company

Joint-Stock Company «Vzljot»

Includes:

Name of the organization	Address	Scope of Certification
LLC «Management Vzljot»	2, let. BM, premise 2-N, office 515, Trefoleva str., St. Petersburg, 198097, Russia	Management of the activities of managed companies and ensuring the functioning of the following processes: design, development, production, verification, implementation, installation, repair, installation supervision, commissioning, technical audit and maintenance of devices and means of non-destructive testing (thickness gauges, level indicators), ultrasonic digital level gauges; flow meters; heat meters; controllers for regulation of heat supply systems; automated heating points; heating regulators; automation tools for measuring and transmitting data (adapters, recorders, data readers, data transfer consoles); verification equipment (verification complexes and verification installations); measuring computing complexes; sets of connecting fittings; implementation of long-term complex projects; development of Software products for analytics of resource consumption, forecasting and management
LLC «Zavod Vzljot»	2, let. BM, premise 2-N, office 515, Trefoleva str., St. Petersburg, 198097, Russia	Production and repair of devices and non-destructive testing equipment (thickness gauges, level indicators); digital ultrasonic level gauges; flow meters; heat meters; controllers for regulation of heat supply systems, hot and cold water supply; automated heating points; heating regulators; heat energy metering units; metering units for liquids; pressure boosting stations; block individual heating points; automation tools for measuring and transmitting data (adapters, recorders, data readers, data transfer consoles); verification equipment (complexes of verification and verification installations); measuring computing complexes; sets of connecting fittings
LLC «Engineering Center Vzljot»	2, let. BM, premise 2-N, office 515, Trefoleva str., St. Petersburg, 198097, Russia	Implementation, repair, installation, installation supervision, commissioning, technical audit and maintenance of control and metering devices for the consumption of liquids and heat energy; controllers and automated systems, including; digital ultrasonic level gauges; flow meters; heat calculators; heat meters; controllers for regulation of heat supply systems, hot and cold water supply; automated heating points; heat energy metering units; metering units for liquids; pressure boosting stations; block individual heating points; heating regulators; automation tools for measuring and transmitting data (adapters, recorders, data readers, data transfer consoles); sets of connecting fittings, internal and external networks and equipment; verification equipment (complexes of verification and
